

Jordan Avery Chen

SENIOR SOFTWARE ENGINEER

jordan.chen@example.com · (415) 555-0148 · San Francisco, CA · jordanchen.dev · linkedin.com/in/jordanchen

SUMMARY

Senior engineer with 9+ years building reliable, high-traffic web platforms. I lead small teams from ambiguous problem to shipped product, care deeply about developer experience, and have a track record of cutting latency and cost while raising reliability. Equally comfortable in the data layer and on the design system.

EXPERIENCE

Staff Software Engineer

2021 – Present

Northwind Labs · San Francisco, CA

- Led the re-architecture of the billing platform to an event-sourced model, cutting reconciliation incidents by 92% and unlocking same-day refunds.
- Mentored a team of 6 engineers; introduced a lightweight RFC process that shortened design-to-merge time from 3 weeks to 8 days.
- Drove a query and caching overhaul that reduced p99 API latency from 840ms to 190ms at 2x traffic.

Senior Software Engineer

2018 – 2021

Brightwave · Remote

- Built the real-time collaboration engine (operational transforms) powering documents for 400k+ daily users.
- Owned the migration from a monolith to 7 well-bounded services with zero customer-facing downtime.
- Established the frontend performance budget; trimmed initial bundle by 38% and improved LCP to under 1.5s.

Software Engineer

2015 – 2018

Cobalt Systems · Austin, TX

- Shipped the public REST and webhook APIs now used by 1,200+ integration partners.
- Added end-to-end tracing and SLO dashboards that became the team's incident-response backbone.

EDUCATION

University of California, Berkeley

2011 – 2015

B.S. in Electrical Engineering & Computer Science · Berkeley, CA

Graduated with honors. Teaching assistant for Data Structures (CS 61B).

SKILLS

Languages

TypeScript, Go, Python, Rust, SQL

Frameworks & Tools

React, Node.js, PostgreSQL, Kafka, Kubernetes, Terraform

Practices

Distributed systems, Observability, Design systems, Mentorship
